## MEDICAL EXCELLENCE

### Frustrated by long wait times and cancelled appointments? Clarendon Health would like to help

Clarendon Health in Dorset and its highly experienced team of medical consultants specialises in women's health, menopause and surgery, fertility and pregnancy, maxillofacial surgery, dermatology, as well as laser therapy for skin resurfacing.

Founder, Mr Alexander Taylor MBBS FRCOG MD, has been serving as a Consultant Obstetrician and Gynaecologist at the Royal Bournemouth Hospital since 2006, where he successfully completed the first total keyhole hysterectomy. He's the Clinical Director for women's health for University Hospitals Dorset and is the head of the women's health and surgery division at Clarendon Health.

If you're currently going through the menopause you may be seeking relief from symptoms such as pain during sex, vaginal dryness, urinary incontinence or lichen sclerosus. Mr Taylor is committed to helping women improve their lives and is a premier provider of MonaLisa Touch® vaginal Laser Therapy in the south of England. This therapy has a proven track record of success and has helped women from all over the south. Experience relief and regain your sense of self with this innovative treatment.

"Any woman out there who's worrying about menopause and complications with menopause... Come along, they're a wonderful team here, from reception to the nurses to Dr Taylor" — Ellie (patient).

Don't put off your health concerns. Clarendon Health understands that your health and the health of your loved ones is the most important thing. The staff make it their priority to put you first, ensuring that you get the best possible healthcare experience.

● **Clarendon Health is a specialist medical clinic and health hub for diagnostics, treatments and minor surgical procedures.**
